RE: Freedom of Information Act Request
Pasco Landfill

10RIN-458-90

Dear Administrator:

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and the regulations promulgated thereunder, 40 C.F.R., Part 2, we request the following identified records: all records and files, whether informational, regulatory, or enforcement which refer or relate in any way to the investigation by the Environmental Protection Agency of the Pasco Landfill.

Our request is intended to obtain, among other material, cost estimates, list of potentially responsible persons, and the final report.

We understand the material requested could be substantial. We assure all costs of copying of any records which we request after review will be reimbursed. To avoid needless expense and expenditure of your staff's time, we request the records identified be first collected and made available for our inspection at a mutually convenient time. Thereafter, we will identify which records are requested to be copied.

In the event any of the requested documents are withheld from disclosure, please provide the specific exemption for which withholding is claimed, and a brief justification therefor.
